

## **Meeting 4 Report**

**Team Name:** Distribution System

**Date of Meeting:** April 20, 2020

**Start Time:** 18:00 **End Time:** 19:30

**Meeting Location:** Zoom app

**Moderator:** Rei Nuriu

**Recorder:** Ermir Hidri

**Other Members Present:** Mateo Bako, Ronald Dumani, Invis Topalli

**Members Absent:** No one

### **Topics discussed:**

First we discussed and evaluated the job we had done until now.

We discussed a lot about the sketches made last week and about the suggestions that the professor gave us last time.

We surely will upgrade the sketches into better ones with new features and new ideas.

By completing the requirements document we will consolidate even more the ideas for our system.

For this week as assigned by the professor we have to continue completing requirement specification document.

Requirements are categorized into two main categories (functional and non-functional) and so the members of our group would be divided into two groups. Sure we do not forget the Domain Requirements.

### **Tasks assigned:**

Rei and Ronald will have to take care of the functional requirements part.

Invis, Mateo and Ermir will deal with non-functional requirements and domain requirements.

Each of the groups will deliver his job to the leader two days after the meeting so he can check the work done by every member.

### **Next meeting:**

Monday 27<sup>th</sup> of April at 18.00
